MAXION

WHEELS

Donald Polk

President
Americas

The wheel.
How can it solve for today's
industry challenges?

Largest wheel manufacturer

- 60 million wheels
- 24 plants
- 12 countries / 5 continents
- \$2.1 Billion
- 10,000+ employees

The Widest Range of Wheels

Light Vehicle
Steel + Aluminum
Wheels

Commercial
Vehicle

Lighter and Stronger than Previous Generation*

North
America's
Lightest CV
Steel Wheel

*22x8.25

- 64 lbs.
- Structural stresses reduced by >10%
- 7,400 lbs. load rating
- Design and process optimized
- New hand hole shape

MaxSmart® Evolves into Smart Wheel Connectivity Solution

- Partner with ZF OPENMATICS
- Measures vehicle load; tire pressure, temperature and humidity; and wheel position, speed and vibration
- Real-time information wirelessly transmitted to vehicle and ZF Cloud

Last Mile Delivery Wheel Addresses New Mobility Needs

- Light commercial vehicle load rating of 2,000 to 3,000 lbs.
- More than 4 million produced annually
- Manufactured in USA, Mexico, Brazil, India, Turkey and Europe
- Ideal for electric powertrains

AEROWHEEL Commercial Vehicle Wheel Cover Concept

- Steer axle wheel aerodynamic solution
- Cover fastening system integrated in wheel
- Significant drag reduction proven by Computational Fluid Dynamics (CFD)
- Wheel styling alternative for trucks and buses

Virtual Reality Experience in Maxion Wheels' booth 4323
