

## Maxion Wheels @ NACV Show 2019 (October 29, 2019)

IMAGE	FILE NAME	CAPTION
	CVS_Tough and Light Side_22.5X8.25 AKN 1019_LR	<b>Tough and Light North American Truck Wheel</b> Maxion Wheels newest commercial vehicle wheel is the "toughest and lightest" standard 22.5x8.25 commercial vehicle steel wheel in the market. A new design combined with optimization analysis eliminated four lbs. of material and reduced wheel structural stresses by more than 10%. The wheel will be available in 2020.
	CVS_Tough and Light Hand Hole_22.5X8.25 AKN 1019_LR	<b>Tough and Light North American Truck Wheel</b> Maxion Wheels' latest commercial vehicle wheel features a new circular hand hole shape deviating from the traditional Maxion Wheels' D-shape. Changing the hand hole combined with design optimization analysis reduced wheel structural stresses by more than 10% resulting in an even more efficient and durable wheel when compared to the previous generation.
	INN_CV_Wheel TAG_1019 LR	<b>Smart Wheel Connectivity Solution</b> Maxion Wheels is partnering with ZF OPENMATICS to help fleets perform more safely and efficiently by collecting essential vehicle data at the wheel. Wheel TAG, mounted directly to the truck wheel rim is a durable Bluetooth sensor that tracks vehicle load, tire air pressure, temperature and humidity, as well as wheel position, speed and vibration across nine axis. Information is collected in real time and wirelessly transmitted to the vehicle's telematics onboard unit before being transferred to the ZF Cloud.

	<p>LCV_Last Mile Delivery Wheel Angle_Black_1019</p>	<p><b>Last Mile Delivery Light Commercial Vehicle Steel Wheel</b> With an appreciation for new mobility vehicle needs, and an understanding of urban transport applications, Maxion Wheels developed the Last Mile Delivery light commercial vehicle steel wheel. Both cost-effective and validated, the company's Class 3 – 7 wheel line helps manufacturers counter the rising costs of new technologies and electric powertrains by utilizing proven and reliable components.</p>
	<p>INN_AEROWHEEL Steer Axle Wheel Cover_Angle Full_1019 LR</p>	<p><b>AEROWHEEL Commercial Vehicle Concept Wheel Cover</b> Maxion Wheels' understanding of vehicle aerodynamics and the role a wheel plays in generating turbulence was the inspiration for its functional and stylish wheel cover concept for truck and bus steer axles.</p>
